

ROMANIAN CIVIL AIRCRAFT REGISTERS & PRODUCTION

These registers and production lists are a 'work-in-progress', but the information does not seem to be available elsewhere in a coherent form.

Much new historical data was added to the 'Standard' YR- register in June 2011 following receipt of an official register via Mike Hollick, to whom grateful thanks.

Also particular thanks to Barbu Nicolescu for his research into the AACR files over many years, and to Liviu Nicolescu, Catalin Cocirla and Alex Bancila for much recent input.

Confirmed sightings, corrections and additions would be very welcome to steveozel@outlook.com

- Aircraft currently-registered (but not necessarily active, or even airworthy) are highlighted in green, thus **YR-ATK**.
- Details of previous and subsequent histories shown in brackets & green italics thus *[nnnnn]*
- Registrations not taken up are in brackets & shaded thus (YR-SUC)
- Registrations reported but believed to be in error are shaded thus YR-EXB
- Fake marks are shown thus 'YR-NHB'
- Aircraft "names" are shown italicised.

Clicking on registrations shown thus YR-ALX or **YR-EAD** (ie. underlined) will open a **PHOTO** of the aircraft

from my Flickr page, with thanks to Catalin Cocirla & Alex Bancila for many of these. You will find lots more, 17,000+, photos directly on [my Flickr page](#).

The following from Air Britain Archive magazine, December 2011:-

“According to Lallouette, as published in Le Petit Journal 15Jun30, the Farman company was contacted by the military attaché of the Romanian legation in Paris and Capt Popp to charter an aircraft able to reach Bucharest by way of crossing the northern part of Romania. The aircraft must land at Munich to take on board an assistant of Capt Popp, the two officers bearing confidential documents concerning national defence. The cost of the charter was to be 40,000 francs. On 4th June Capt Popp specified that the aircraft must land after crossing the northern frontier of Romania. The situation worried Lallouette somewhat, believing that in the event of an emergency landing in Hungary an incident would be caused, he did not arrange authorization to overfly that country.

On 5th June 1930 Marcel Lallouette, accompanied by the Romanian pilot Popp, took off for Munich at 1400. After having prepared the aircraft for the following day's flight and taking into account strong headwinds which he expected to encounter with an aircraft fitted with reduced fuel capacity, Lallouette arranged a supplementary reserve of 50 litres of fuel in order to avoid having to land in Hungary. Capt Popp's 'assistant', who would prove to be Prince Carol, came from Paris by car with a passport issued in a false name and, delayed by bad weather, did not arrive until one o'clock in the morning. The next morning the departure from Munich went smoothly followed by overflight of Vienna and Presbourg. After Presbourg Lallouette landed in a field in Czechoslovakia to transfer to the main tank the 50 additional litres of fuel that he had brought. He then took off again towards Hungary, over-flying Budapest at a height of 150 metres in disregard of the regulations, before crossing the Romanian frontier.

Once in Romania, Lallouette seeking a source of fuel, landed in the countryside, avoiding the military ranges at Oradea-Mare. He was immediately joined by the Potez 25 of Capt Christesco of the flying centre at Cluj who had followed him since crossing the frontier. The two aircraft departed together but the Farman, again running short of fuel, had to land again in a field 75km from Oradea. Capt Christesco, arriving alone at Cluj and worried by their absence, turned back, meanwhile Lallouette had gone in search of fuel. Taking Prince Carol on board, Christesco returned to Cluj where Lallouette and Popp arrived just after the departure of the Prince by air with Capt Opris for Bucharest which was reached at 2230. After spending the night at Cluj, Lallouette and his Farman arrived at Bucharest on the following day, June 7th. In recollection of these events the King decided to purchase the Farman F-AJHZ and to decorate Marcel Lallouette. On the 11th December 1930 the aircraft's registration was cancelled.

In Romania, F.190 no.31 initially retained its original condition wearing its French registration but a tricolor stripe of Romanian national colours was painted on the fuselage. Its ultimate fate is unknown, but it may have become YR-AAM.”

YR-ULM series

(* after the c/n indicates that it is confirmed from photo or physical inspection)

Aircraft currently listed in the Aeroclubul României ULM register are highlighted in green thus, **YR-5253**, (although these may not necessarily be active, airworthy, or even extant). A small number of ULMs known to be active but, for unknown reasons not listed in the Aeroclubul României ULM register, are also highlighted in green.

From 01Jan23 ULMs have required a full CofR not just a CofI (Certificate of Identification). All ULMs without a valid CofA as of 31Dec22 were automatically canx on 01Jan23. Order of Minister of Transports and Infrastructure no. 554/2022 refers. Almost 200 ULMs were canx on 01Jan23 because of this order; only a small number have subsequently been restored. There were 555 ULMs listed as current as of 20Aug26, 858 overall listed.

Motodeltaplan = motorised trike

Motoparapantă = paramotor

The type and c/n presentation of motorized trikes & paramotors in official data is very inconsistent. I have tried to list types as frame or trike / wing / engine, but details in these categories are often missing. C/ns are most frequently shown for the wing on official documents, but sometimes frame and/or engine serial numbers are also shown.
